

# Data Repositories

# Data.gov.uk

data.gov.uk is a UK Government project to make available non-personal UK government data as open data. It was publicly launched in January 2010. As of February 2015 it contained over 19,343 datasets, rising to over 40,000 in 2017.

<https://data.gov.uk/>

# UK Data Service

The UK Data Service is a national data service that provides research access to a range of social and economic data collections including UK census data and government funded surveys as well as qualitative and business data.

The screenshot shows the UK Data Service website in a web browser. The browser's address bar displays <https://www.ukdataservice.ac.uk/>. The website features a navigation menu with links for 'About us', 'Get data', 'Use data', 'Manage data', 'Deposit data', and 'News and events'. A search bar is prominently displayed in the center, with the text 'Explore the UK's largest collection of social, economic and population data resources' above it. Below the search bar, there are sections for 'About the UK Data Service' and 'Guides and resources'. The 'About the UK Data Service' section includes a video player showing a red double-decker bus. The 'Guides and resources' section lists various guides and a 'Video tutorials' section with a 'See more' link. At the bottom, a dark blue banner contains the text 'See data from all over the world' and a button labeled 'Browse our data map'.

https://www.ukdataservice.ac.uk/

# London Datastore

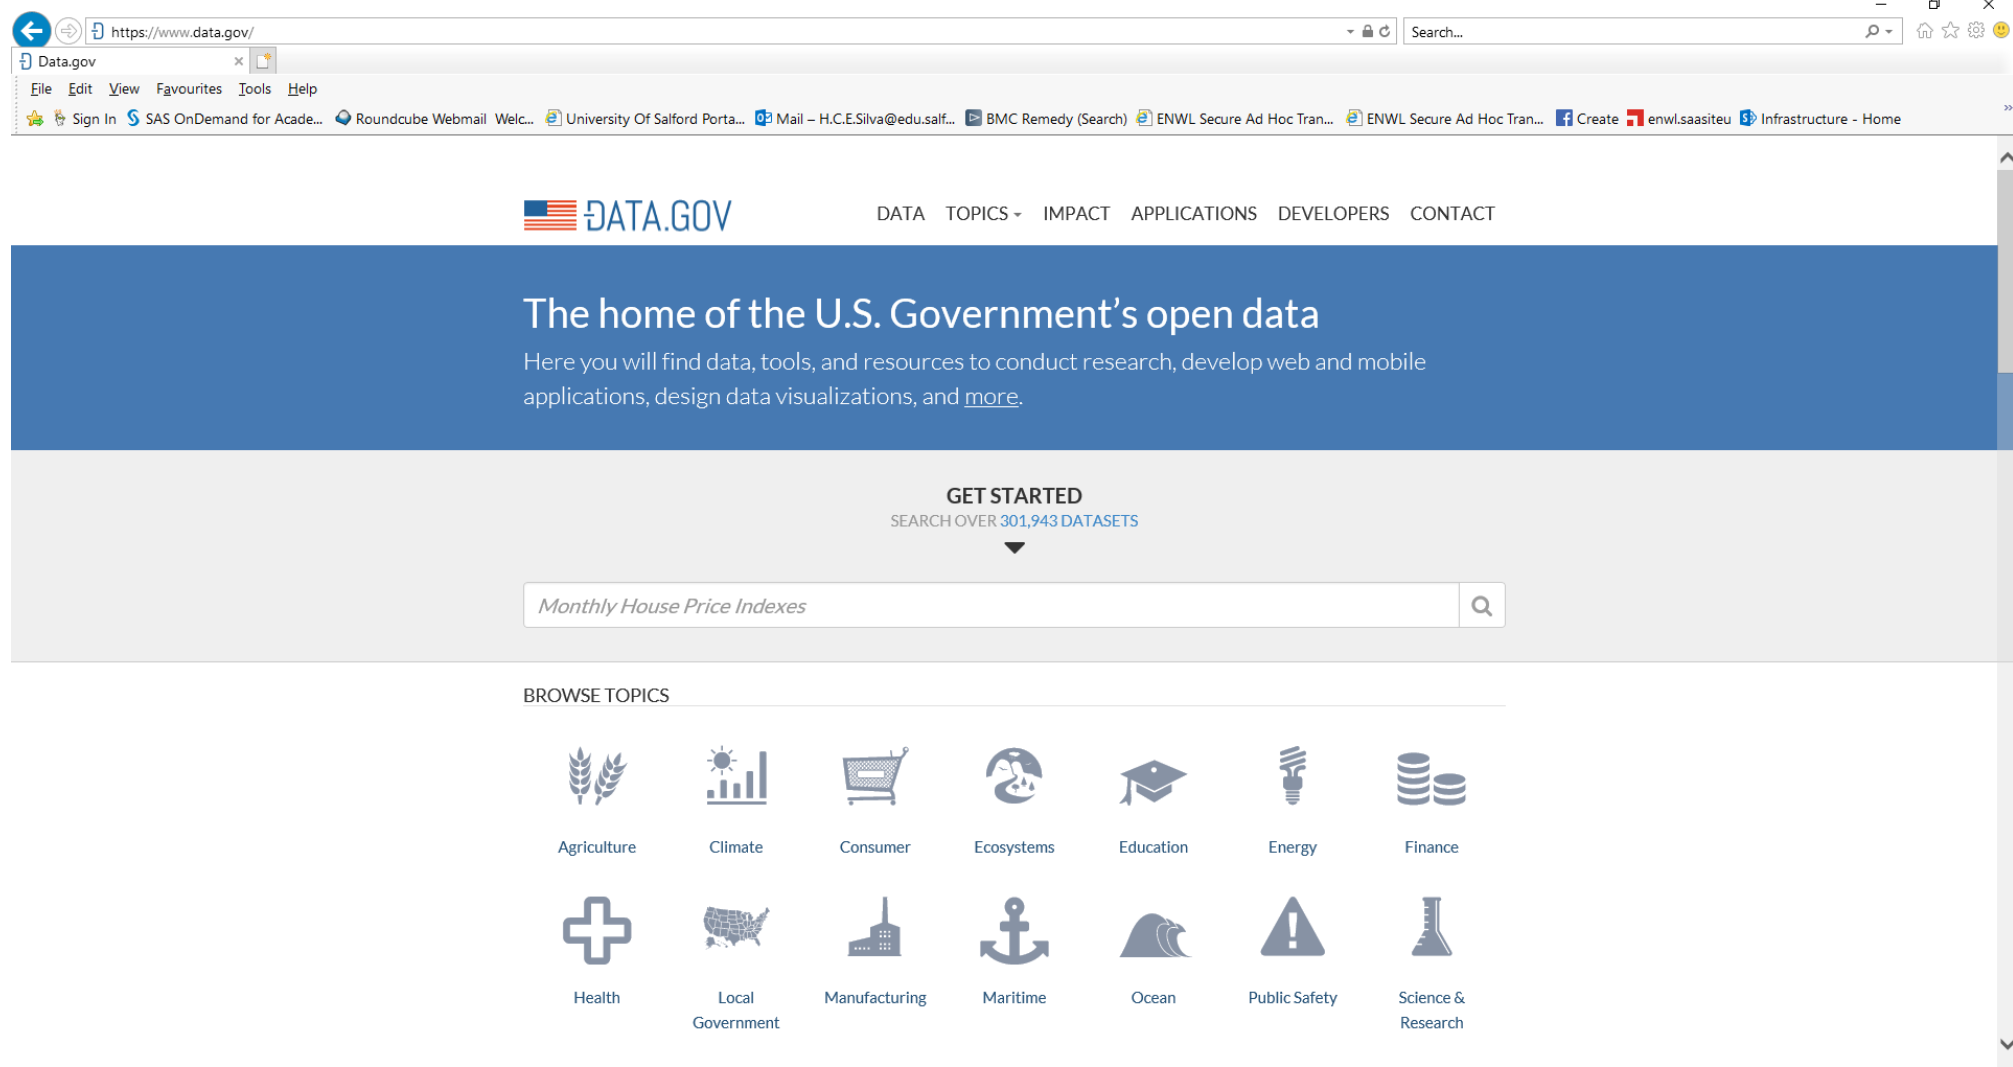

The *London Datastore* is a free and open data-sharing portal where anyone can access data relating to the capital.

The screenshot shows the London Datastore website in a web browser. The address bar displays <https://data.london.gov.uk/>. The page features a dark header with 'MAYOR OF LONDON' and 'LONDONASSEMBLY'. Below this is the 'LONDON DATASTORE' title and a 'Login' button. A navigation bar includes links for 'Data', 'Blog', 'Apps & Analysis', 'LODA', 'Area Profiles', 'Boroughs', and 'More'. A large banner image of the Tower Bridge is shown with a search bar overlaying it that says 'Search 768 datasets...'. Below the banner, a text update reads 'Updated 3 days ago: Borough Council Election Results 2018'. A row of nine circular icons represents different data categories: JOBS AND ECONOMY, TRANSPORT, ENVIRONMENT, COMMUNITY SAFETY, HOUSING, COMMUNITIES, HEALTH, LONDON AS A WORLD CITY, and GLA PERFORMANCE. Below these icons, a visitor statistic is displayed: 'International Visitors: 4,031,780 ▼ Down 10.1% on same quarter last year'. The footer contains a 'Welcome to the Datastore' message and a 'Latest Tweet by @LDN\_Data' section.

<https://data.london.gov.uk/>

# Data.gov

The home of the U.S. Government's open data. The *Data.gov* catalog brings together datasets from hundreds of agency sources across the US federal government.

<https://www.data.gov/>

# Data.gov.au

data.gov.au provides an easy way to find, access and reuse public datasets from Government. The main purpose of the site is to encourage public access to and reuse of public data

The screenshot shows the data.gov.au website interface. At the top, there's a navigation bar with the Australian Government logo, the data.gov.au logo, and links for Datasets, Organisations, About, Site Statistics, Request Data, Use Cases, National Map, and Toolkit. A search bar is also present. Below the navigation bar, the main content area displays search results for the query 'AGe'. The results show 922 datasets found. The first result is 'Aged Care Service List', which provides information on aged care services subsidised by the Australian Government under the Aged Care Act 1997. The second result is 'Ages of insolvent debtors', which provides statistics on the age of insolvent debtors at the time of their insolvency. The third result is 'Aged Accommodation - Greater Geelong', which provides polygon data of aged accommodation in Geelong. The fourth result is 'Fines Aged Debt Outstanding', which lists outstanding fines by various criteria for financial year 2013 to 2014. On the left side of the search results, there is a sidebar with a list of organisations and groups, including 'Corp (299)', 'Geoscience Australia (227)', 'South Australian Go... # UCI Machine Learning Repository

The UCI Machine Learning Repository is a collection of databases, domain theories, and data generators that are used by the machine learning community for the empirical analysis of machine learning algorithms.

Browser window showing the UCI Machine Learning Repository website. The address bar displays <http://archive.ics.uci.edu/ml/datasets.html>.

The website header includes the UCI logo, the text "Machine Learning Repository", and the subtitle "Center for Machine Learning and Intelligent Systems". Navigation links include "About", "Citation Policy", "Donate a Data Set", and "Contact". A search bar is present with a "Search" button and a "View ALL Data Sets" link.

The main content area displays a table of datasets, categorized by "Browse Through: 452 Data Sets". The table lists various datasets with columns for Name, Data Types, Default Task, Attribute Types, # Instances, # Attributes, and Year.

	Name	Data Types	Default Task	Attribute Types	# Instances	# Attributes	Year

# NERC Data Catalogue Service

NERC has a network of environmental data centres that provide a focal point for NERC's scientific data and information. These centres hold data from environmental scientists working in the UK and around the world.

The screenshot shows the NERC Data Catalogue Service web application. At the top, there is a banner with the NERC logo and the text "Data Catalogue Service sharing NERC data". Below the banner, there is a search bar and a navigation menu. The main content area is divided into two sections: "Suche" (Search) and "Metadatenportal" (Metadata Portal). The "Suche" section displays a list of filters for INSPIRE Themen, including Koordinatenreferenzsysteme (887), Höhe (990), Bodenbedeckung (85), Orthofotografie (11), Geologie (569), Boden (142), Bodennutzung (17), Gesundheit und Sicherheit (11), Geografische Gittersysteme (188), Umweltüberwachung (26), Atmosphärische Bedingungen (190), Meteorologisch-geografische Kennwerte (150), Ozeanografisch-geografische Kennwerte (1040), Meeresregionen (45), Biogeografische Regionen (12), Lebensräume und Biotope (7), Verteilung der Arten (5), and Energiequellen (57). The "Metadatenportal" section displays a list of filters for Ressourcen, including Datenbestand (6172), Serie (377), and Nichtgeografischer Datenbestand (36).

re3data.org is a global registry of research data repositories that covers research data repositories from different academic disciplines. It presents repositories for the permanent storage and access of data sets to researchers, funding bodies, publishers and scholarly institutions.

The screenshot shows the re3data.org website interface. At the top, there's a navigation bar with the re3data.org logo, a search bar, and links for Search, Browse, Suggest, Resources, and Contact. A DataCite logo is also present. Below the navigation bar, a sidebar on the left contains a 'Filter' section with various categories like Subjects, Content Types, Countries, AID systems, API, Certificates, Data access, Data access restrictions, Database access, Database access restrictions, Database licenses, Data licenses, Data upload, Data upload restrictions, Enhanced publication, Institution responsibility type, Institution type, Keywords, Metadata standards, PID systems, Provider types, Quality management, Repository languages, Software, Syndications, Repository types, and Versioning. The main content area displays search results for the query 'data science'. It shows a pagination bar with 41 results, a 'Sort by' dropdown, and a list of repository entries. The first entry is 'Social Science Data Archive - UCLA' (SSDA), which is categorized under 'Social and Behavioural Sciences' and 'Humanities and Social Sciences'. It lists content types like 'Raw data', 'Scientific and statistical data formats', 'Structured text', 'Archived data', 'Audiovisual data', and 'other'. The second entry is 'International Satellite Cloud Climatology Project' (ISCCP), categorized under 'Chemistry', 'Atmospheric Science', 'Natural Sciences', 'Atmospheric Science and Oceanography', and 'Geosciences (including Geography)'. It lists content types like 'Images', 'Audiovisual data', 'Structured graphics', and 'other'. The third entry is 'DARTS' (ISAS Data Archive and Transmission System), categorized under 'Astrophysics and Astronomy', 'Physics', and 'Natural Sciences'. It lists content types like 'Scientific and statistical data formats', 'Networkbased data', 'Structured graphics', 'Raw data', and 'Images'.

Country United States

The Social Science Data Archives maintains a collection of machine-readable survey, census, and administrative data files and provides access to publicly available data. A portion of the collection is focused on Los Angeles from a demographic, economic, social, or political viewpoint. Los Angeles-specific data may also be extracted from files in the collection that contain data from studies covering demographic areas larger than Los Angeles.

# Harvard Dataverse

The Harvard Dataverse is open to all scientific data from all disciplines worldwide. It includes the world's largest collection of social science research data. It is hosting data for projects, archives, researchers, journals, organizations, and institutions.

The screenshot shows the Harvard Dataverse website interface. At the top, there's a navigation bar with the Harvard Dataverse logo and links for Search, About, User Guide, Support, Sign Up, and Log In. Below this, a search bar is present with the text "Search this dataverse...". To the right of the search bar are buttons for "Find", "Advanced Search", and "Add Data".

On the left side, there's a sidebar with filters. The "Dataverses (2,992)" and "Datasets (80,641)" sections are expanded. Under "Dataverse Category", there are links for Research Project (1,020), Researcher (874), Organization or Institution (265), Research Group (128), and Journal (84). Under "Metadata Source", there are links for Harvested (53,684) and Harvard Dataverse (29,949). Under "Publication Year", there are links for 2015 (15,450), 2011 (9,548), 2012 (8,147), 2018 (4,646), and 2016 (4,117). Under "Subject", there are links for Social Sciences (36,955), Medicine, Health and Life Sciences (2,438), Agricultural Sciences (1,237), Earth and Environmental Sciences (1,171), and Other (760).

The main content area displays "1 to 10 of 83,633 Results". The first result is "Documentary about vivax malaria in Brazil Amazon" by Murta, Felipe, 2018, with a DOI of 10.7910/DVNL50FKS. The second result is "The Historical Reuters News-Wire" by Kulkarni, Rohit, 2018, with a DOI of 10.7910/DVN/XDB74W. The third result is "TGO Ramfjordmoen Ionosonde Data December 1991" by Tromsø Geophysical Observatory, 2018, with a DOI of 10.18710/ZONQUZ. The fourth result is "TGO Ramfjordmoen Ionosonde Data June 1990" by Tromsø Geophysical Observatory, 2018, with a DOI of 10.18710/ZLQIZZ.

At the bottom right, there's a "Feedback" button.

<https://dataverse.harvard.edu/>

# Mendeley Data

Mendeley Data is a multidisciplinary, free-to-use open research data repository, where you can upload and share data files up to 10GB so they are archived, preserved and findable for the long-term.

The screenshot shows the Mendeley Data website homepage. The browser address bar displays <https://data.mendeley.com/>. The page features a dark header with the Mendeley logo and navigation links: Sign in, Create account, and Download. Below the header, a navigation bar includes links for Reference Management, Research Network, Datasets, Careers, and Funding. A secondary navigation bar offers Find Research Data, My Datasets, New Dataset, and FAQ. The main content area has a purple-tinted background with the heading "Discover Mendeley Data" and the subtext "Store, share, publish and find research data". A prominent blue button labeled "Create a Dataset" is visible, along with a link for "Already using Mendeley? Sign in". Below this, a section titled "Find research data" states "Search 9.9 million datasets from domain-specific and cross-domain repositories". It includes a search input field with the placeholder "Find Research Data" and a magnifying glass icon. Below the search field, it suggests search terms: "Or try: chip-seq drosophila, late quaternary sediment core or qubit oscillator frequency". At the bottom, a section titled "Open research data repositories in our index" lists various partner organizations: 4TU, a tree icon, a person icon, ICPSR, zenodo, and Apollo.

# Microsoft Research Open Data

A collection of free *datasets* from Microsoft *Research* to advance state-of-the-art *research* in areas such as natural language processing, computer vision, etc....

The screenshot shows the Microsoft Research Open Data website. The browser address bar displays <https://msropendata.com/datasets?sort=3>. The page features a navigation bar with the Microsoft logo and links to 'Microsoft Research Open Data', 'Categories', 'About', 'FAQs', 'Feedback', and 'Login'. On the left, there are two expandable sections: 'Categories' and 'Formats'. The 'Categories' section lists various fields like Biology, Computer Science, Engineering, Environmental Science, Healthcare, Information Science, Mathematics, Physics, and Social Science. The 'Formats' section lists file types: bin, csv, docx, json, and pdf. The main content area shows a search bar with the text 'Search datasets'. Below the search bar, it indicates '56 dataset(s) found' and a 'Sort' dropdown menu set to 'Featured'. The first dataset listed is 'SigmaDolphin', which is marked as 'FEATURED' and has a size of 11.54 MB, dated June 2018. The description for SigmaDolphin states: 'Building a computer system to automatically solve math word problems written in natural language. SigmaDolphin is a project initiated in early 2013 at Microsoft Research Asia, with the primary goal of building a computer intelligent system with natural language understanding and reasoning capacities. We focus on the application of automatic problem solving, i.e., automatically solving problems (especially math word problems) written in natural language.' It also lists 'File Types: json, pdf, pkl, py, txt', 'License: Microsoft Research Data License Agreement', and 'Last Modified: 6/20/18'. A 'SEE MORE' link is provided. Below this, the 'Frames' dataset is also listed as 'FEATURED' with a size of 71.34 MB, dated June 2018. Its description mentions: 'A generation of voice assistants such as Siri, Cortana, and Google Now have been popular spoken dialogue systems. More recently, we have seen a rise in text-based conversational agents (aka chatbots). Text is preferred to voice by many users for privacy reasons and in order to avoid bad speech recognition in noisy environments.'

# DataONE

DataONE is an international federation of data repositories containing earth observations data, including data from fields such as ecology, biology, evolution, and environmental sciences such as hydrology, oceanography, and atmospheric science. DataONE is a federation with participation from hundreds of field stations, universities, and government agencies through the DataONE Member Nodes.

The screenshot shows the DataONE website homepage. At the top, there's a browser window with the URL <https://www.dataone.org/>. The website header includes the DataONE logo and a navigation bar with links: About, News, Participate, Resources, Education, and Data. Below the header, there are three main sections: 'Discover' (Find data from affiliated member repositories), 'Participate' (Make the most of your data with supporting tools and services), and 'Learn' (Access materials and resources to support learning in good data management practices). Each section has a 'More' button. Below these sections, there's a 'What is DataONE?' section with a brief description of the project. To the right, there's a 'Tweets by @DataONEorg' section showing two tweets. At the bottom, there's a 'Check out the new Data Management Skillbuilding Hub' section with a thumbnail image and a 'LEARN MORE' button.
